

SUPER PROFIL

PRODUCTION OF MOLDED MDF PRODUCTS

“Super Profil” is one of the leading manufacturers in Ukraine, specializing in the production of various profiles made from MDF boards. These include: MDF skirting boards, wall panels, slatted wall panels, slat dividers, MDF architraves, cornices, profiles, and more.

Founded in 2003, our company boasts extensive experience and an impeccable reputation, consistently producing high-quality products for over 22 years.

More than a thousand items are manufactured and kept in stock at all times. We also create dozens of exclusive products specifically for furniture manufacturers, either as individual furniture components or tailored to specific customer requirements.

We guarantee that our products fully meet all quality standards, as we use precise, innovative, and high-quality equipment in production, ensuring that our products will exceed your expectations!

Overlay 0630

This architrave allows you to create interesting and original solutions for your interior! For example, it can be used as a ceiling skirting board or as a frame for facades, paintings, or photographs. Additionally, this architrave can be added to a standard skirting board, resulting in a fresh look and added depth.

Bar size - 2800x30x6 mm
Bar weight* - 0.382 kg
Package size - 2805x65x30 mm
Package weight* - 3.9 kg
Quantity per package - 10 pcs
Length per package - 28 m
Package volume - 0.0055 m³

PP1255

This model is designed to replace inexpensive plastic skirting boards, offering a more attractive, reliable, durable, and ergonomic alternative. For those tired of plastic but not yet ready for more substantial skirting board designs, this model is perfect for you.

Bar size - 2800x52x19 mm

Bar weight* - 0.893 kg

Package size - 2820x58x232 mm

Package weight* - 17.76 kg

Quantity per package - 19 pcs

Length per package - 53.2 m

Package volume - 0.0379 m³

PP1260

This skirting board is ideal for furnishing small apartment rooms, kitchens, or hallways, as well as for fans of minimalist style. It serves as an excellent alternative to plastic skirting boards and will be truly appreciated by those who care about the smallest details of their home. Despite its compact size, it retains all the premium advantages of an MDF skirting board: neat and elegant corners, joints, and finishes, along with a beautiful, modern, and far-from-budget appearance.

Bar size - 2800x58,5x12 mm

Bar weight* - 1.24 kg

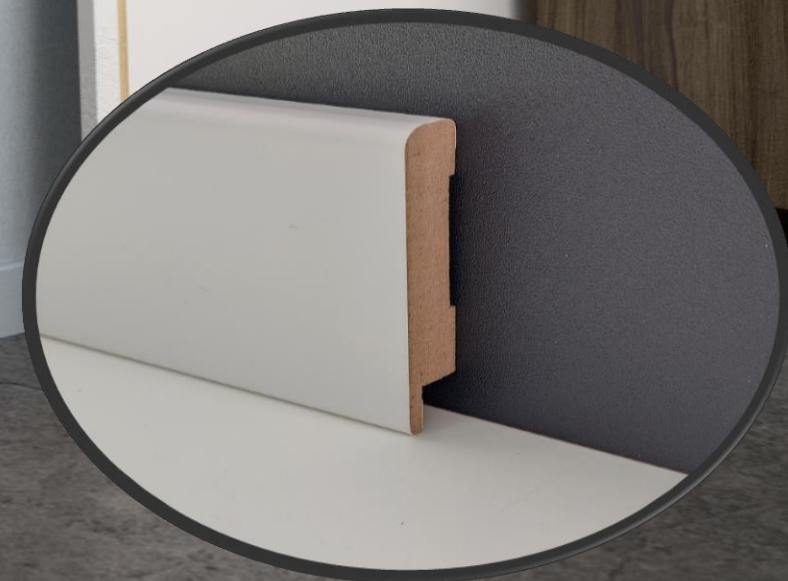

Package size - 2820x68x156 mm

Package weight* - 15.54 kg

Quantity per package - 12 pcs

Length per package - 33.6 m

Package volume - 0.0299 m³

PP1280

Our most popular model. With a height of 80 mm, it features a classic, understated, and versatile design while maintaining its core practical functions. Its range of applications is incredibly broad—hotels, offices, hallways, and classic living rooms—wherever it's used, it blends in seamlessly.

Bar size - 2800x79x12 mm
Bar weight * - 1.71 kg
Package size - 2820x58x232 mm
Package weight* - 21.23 kg
Quantity per package - 12 pcs
Length per package - 33.6 m
Package volume - 0.0379 m³

PP1662

This skirting board is a strong competitor to traditional wooden skirting boards. Its shape resembles the most popular wooden designs, yet it comes in our familiar wide range of colors, perfectly matching modern laminate flooring and thus appearing more striking than standard wood. It's also more practical.

Bar size - 2800x60x23 mm

Bar weight* - 1.168 kg

Package size - 2820x53x232 mm

Package weight* - 14.82 kg

Quantity per package - 12 pcs

Length per package - 33.6 m

Package volume - 0.0347 m³

PP1680

The PP1680 is a variant of the PP1280, differing only in its 4 mm greater thickness. Like the PP1280, it's commonly used in hotels, offices, hallways, and other public spaces. Thanks to its increased thickness, it more effectively conceals the expansion gap between the floor and wall.

Bar size - 2800x79x16 mm
Bar weight* - 2.07 kg
Package size - 2820x68x232 mm
Package weight* - 25.68 kg
Quantity per package - 12 pcs
Length per package - 33.6 m
Package volume - 0.0445 m³

PP1682

One of our most popular models. It combines all the benefits of a visually rich skirting board suited for standard apartments. Your friends will admire your choice— it's no longer just cheap plastic hiding the expansion gap but a true design element of your home. As they say, it's all in the details.

Bar size - 2800x80x21 mm
Bar weight* - 1.628 kg
Package size - 2820x63x232 mm
Package weight* - 20.36 kg
Quantity per package - 12 pcs
Length per package - 33.6 m
Package volume - 0.0412 m³

PP1695

This skirting board features an attractive curved design, with a height of 95 mm and a thickness of 16 mm. It's the shortest in our premium range. While premium skirting boards (ours and others') typically start at 110 mm, our analysis shows that buyers seek stylish, modern designs even in smaller rooms with lower ceilings. Everyone dreams of making their home beautiful and cozy, and this model strikes a perfect balance between full-on premium and rich, practical simplicity.

Bar size - 2800x95x16 mm
Bar weight* - 2.495 kg
Package size - 2820x68x232 mm
Package weight* - 20.8 kg
Quantity per package - 8 pcs
Length per package - 22.4 m
Package volume - 0.0445 m³

PP1699

If you aim to design your interior in a restrained, strict, unobtrusive yet solid and luxurious style, choose the PP1699. It perfectly accentuates your flooring and suits both spacious, bright rooms in country homes and standard, roomy urban apartments or offices.

Bar size - 2800x99x16 mm

Bar weight* - 2.73 kg

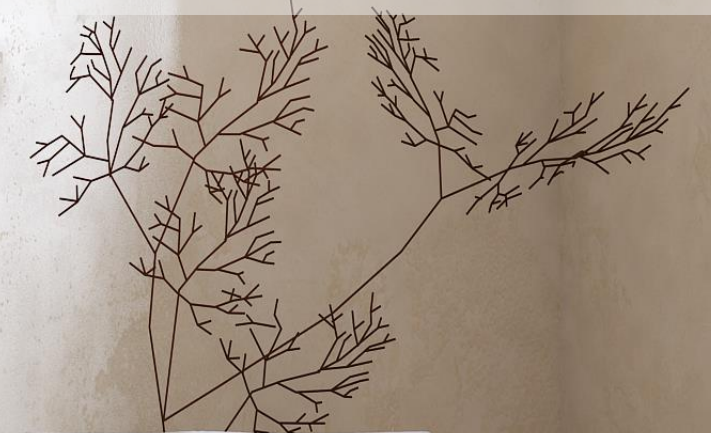

Package size - 2820x68x232 mm

Package weight* - 22.68 kg

Quantity per package - 8 pcs

Length per package - 22.4 m

Package volume - 0.0445 m³

PP16100

Take the PP16100 for an elegant and stylish interior. Introduced in 2018, this skirting board is one of our most versatile models. It boasts both a bold, eye-catching design and an ergonomic, compact shape, making it ideal for spacious country homes with large, bright rooms as well as standard city apartments or offices.

Bar size - 2800x99x16 mm

Bar weight* - 2.545 kg

Package size - 2820x68x232 mm

Package weight* - 21.2 kg

Quantity per package - 8 pcs

Length per package - 22.4 m

Package volume - 0.0445 m³

PP16110

A classic in the premium segment with a height of 110 mm. This skirting board is primarily used in modern new builds alongside laminate flooring, parquet boards, or other contemporary floor coverings. It features a distinct designer shape, serving not only a practical purpose but, above all, an aesthetic one—perfect for today's modern homes!

Bar size - 2800x110x16 mm

Bar weight* - 2.665 kg

Package size - 2820x68x232 mm

Package weight* - 22.16 kg

Quantity per package - 8 pcs

Length per package - 22.4 m

Package volume - 0.0445 m³

PP16145

"A premium high skirting board, 145 mm, designed for spacious rooms. Ideal for large living rooms, bedrooms, or offices with high ceilings (from 2.7 m). It conceals floor-to-wall joints and complements parquet, laminate, or tiles. Perfect for both classic and modern interiors where aesthetics and functionality matter."

Bar size - 2800x144x16 mm

Bar weight* - 3.635 kg

Package size - 2820x68x156 mm

Package weight* - 15.2 kg

Quantity per package - 4 pcs

Length per package - 11.2 m

Package volume - 0.0299 m³

Decorative wall elements

Wooden slats and their imitations are increasingly gaining popularity in designer and architectural solutions for stylish interior decoration. Our slatted wall panels not only realistically replicate the look of wood but are also more affordable, easier to install, and offer broader applications. Moreover, their installation doesn't require complex wall preparation or highly skilled labor, further saving time and costs.

Slatted Wall Panel 12117

Model 12117 is a classic, the most popular and sought-after option in our range of slatted wall panels. It incorporates 100% of all advantages and enhancements, with its well-thought-out geometry fully concealing all possible joints and connections while avoiding typical usage challenges. This sets our product apart from competitors. Designs featuring the 12117 offer a flawless, polished, and monolithic aesthetic.

Bar size - 2800x117x12 mm

Bar weight* - 2.120 kg

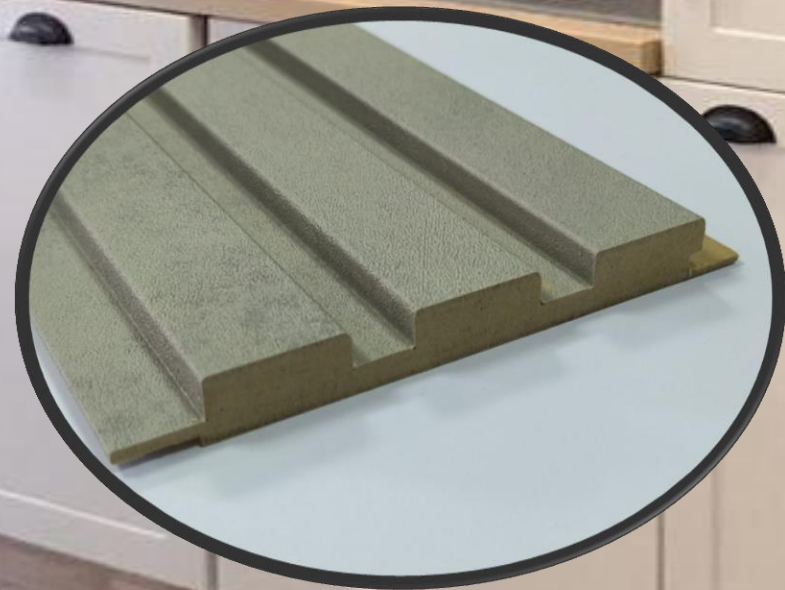

Package size - 2820x63x232 mm

Package weight* - 22.02 kg

Quantity per package - 10 pcs

Length per package - 28 m

Package volume - 0.0412 m³

Slatted Wall Panel 1265

This panel is essentially an enlarged version of the 12117. With this model, you can further expand the applications of this material. The 1265 looks harmonious in larger spaces and appeals to those who prefer more substantial slats. It can be creatively paired with the 12117 in a single design, allowing combinations not only of models but also of decors and tones—mixing lighter and darker shades within one project! We've also maintained proportional sizing between these panels: one 12117 matches the width of two 1265 units, enabling symmetry and perfection in the finished product when both are used.

Bar size - 2800x65x12 mm
Bar weight* - 1.183 kg
Package size - 2820x63x232 mm
Package weight* - 24.48 kg

Finish Molding 1238

Bar size - 2800x38x12 mm
Bar weight* - 0.667 kg
Package size - 2820x63x97 mm
Package weight* - 9.48 kg
Quantity per package - 14 pcs
Length per package - 39.2 m
Package volume - 0.0172 m³

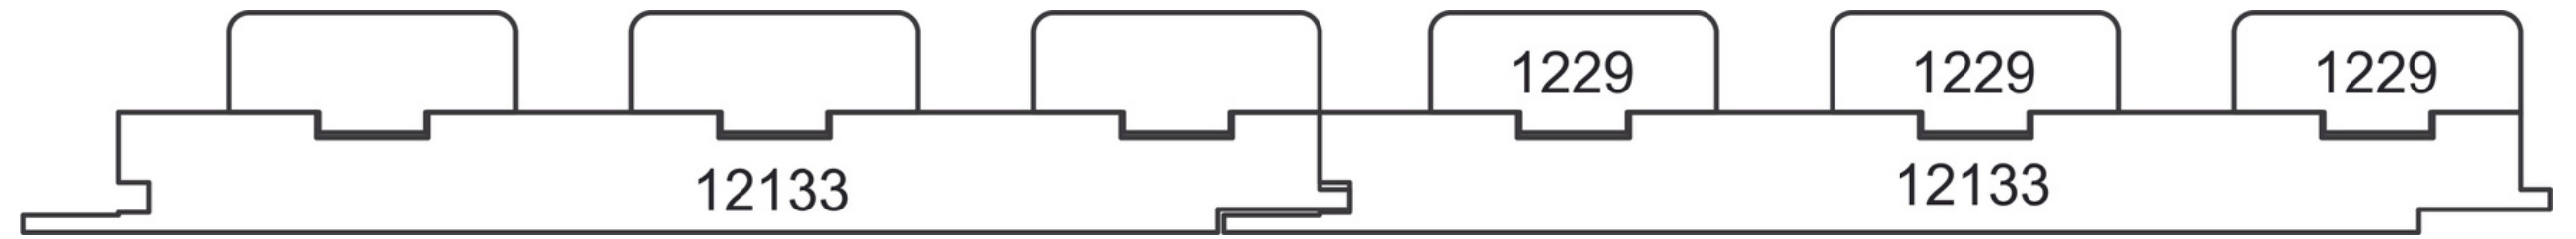

When installing our slatted wall panels, clients often face the question of how to properly finish the edges in order to achieve a harmonious look. We took care of it! Our start (1234) and finish (1238) moldings are perfect for this task. Simply start and finish your installation with them, and you'll achieve an exceptional result!

Modular Wall Pannels

S P
SUPER PROFIL

- Modular wall panels consist of two components: Modular wall panel 12133. It is attached to the wall and serves as a base, a background in the future finished project. The modular slats 1229 is a rail that is inserted into the corresponding grooves of the set panel. The main advantage of this “constructor” is that we can easily create a premium and perfect project in a short time and at a cost savings. There is no need to prepare the wall, use solid wood or other paint and varnish materials. Just install the prefabricated panel and lay the slats. The project is ready.

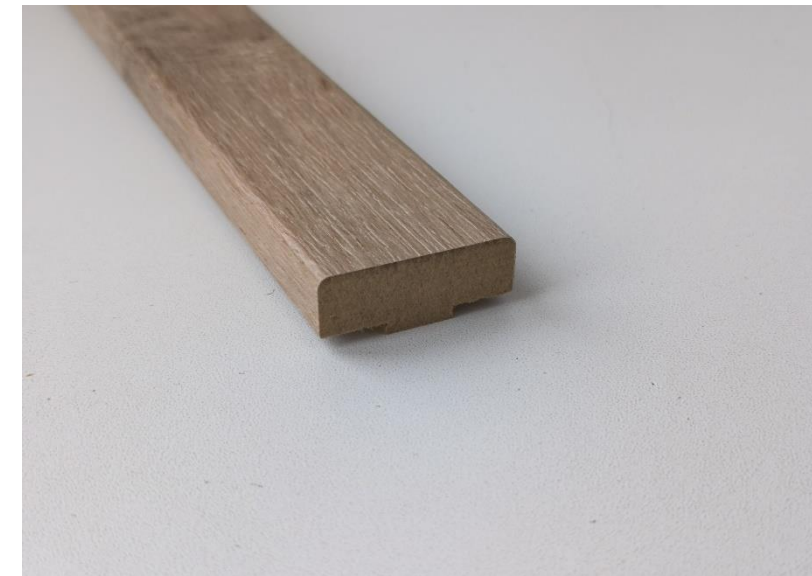

The Modular Wall Pannel 12133

Bar size - 2800x133x12 mm
 Bar weight* - 2.704 kg

 Quantity per package - 15 pcs
 Length per package - 42 m
 Package volume - 0.0172 m³

Decorative slats 2529

This modern styling trend allows to create the space in an innovative way with a combination of decorative slats on the wall. Slats add many unexpected, interesting, and creative opportunities for implementing new ideas in interior design and provide reliable wear protection and durability.

Bar size - 2800x30x25 mm
Bar weight* - 1.620 kg
Package size - 2820x68x156 mm
Package weight* - 20.10 kg
Quantity per package - 12 pcs
Length per package - 33.6 m
Package volume - 0.0299m³

Slat Dividers 2286

Another stylish and original solution that will highlight the interior in a special way! Made of high-quality MDF - a material that combines the properties of wood and high durability - and covered with a PVC film, which makes its surface practically invulnerable to water, moisture, household chemicals, and moderate physical damage. Creating partitions or dividing certain zones is an effective and ultra-modern solution that will delight your guests!

Bar size - 2800x86x22 mm
Bar weight* - 3.837 kg
Package size - 2820x68x232 mm
Package weight* - 23.86 kg
Quantity per package - 6 pcs
Length per package - 16.8 m
Package volume - 0.0455 m³

Wall Pannel 06225

A convenient and aesthetic solution for wall finishing. Features a modern, practical V-shaped inter-panel connection, excellent sound and thermal insulation properties. Made from high-quality MDF and coated with PVC film for superior strength and wear resistance. Easy panel installation with multiple mounting options.

Bar size - 2800x225x6 mm
Bar weight* - 2.843 kg
Package size - 2820x53x232 mm
